

At the end of October, in the days between 27 - 30 October in Dąbrowa Białostocka and Białystok hosted the first partnership meeting of the project „**International cooperation - the guarantee of development of local products**”

This project has been funded with support from the European Commission. This publication [communication] reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

The meeting was attended by representatives of organizations from Italy, Cyprus, Greece, Portugal and Poland. It was first working meeting. In two days, delegates spoke about their organization, its activities and experience. Coordinator of the project presented results and products to achieve during 24 months cooperation and explained the rules of the partnership and justification of expenditures and payments.

Rules of each partner in the project were presented and confirmed by participants after discussion.

The work was completed with the signing of partnership agreements prepared by the coordinator of the project - **GAMA Foundation** from Poland.

During the meeting we visited a local manufacturer of Białystok - **Brewery Gloger** (browargloger.pl). We had the opportunity to hear about the procedure of brewing beer, watch the equipment used in manufacturing and hear the life story of the famous ethnologist from Jezewo near Tykocin Zygmunt Gloger and the Old Polish Illustrated Encyclopedia (1900-1903) which was inspiration to name the proposed beers.

A few words about the project: it is directed to manufacturers of broadly understood local product and people who would like to work in this industry. Participation in the project will enable these people informal education: in the field of product marketing, local and international promotion and the use of free ICT tools available online.

During the project we will create the website, Facebook profile and Google platform allowing communication, exchange of experiences, markets. We will be encouraged to cooperate local producers with producers from partner countries (Italy, Greece, Portugal and Cyprus) to exchange experiences and share examples of good practice. (More information can be found on website fundacjagama.za.pl - the project website is during construction).
