Erasmus+

**Second transnational meeting
Erasmus+ Rome – Italy
26th - 27th May 2017**

**INTERNATIONAL
COOPERATION-THE GUARANTEE
OF DEVELOPMENT OF
LOCAL PRODUCTS**

On May 26th and 27th in Rome the second meeting of the „CLIP - International cooperation - the guarantee of development of local products” project was held.

This project has been funded with support from the European Commission.

This publication/communication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

The meeting was attended by representatives of organizations from Italy, Cyprus, Greece, Portugal and Poland. It was the second working meeting.

In two days, the delegates spoke about their organization, its activities and experience connected with the project. The Italian host Partner presented the official website of the project and the final version of the project logo.

Agricola Trevisi. Azienda Agricola Trevisi is one of the firms involved in the project.

A few words about the project: it is directed to manufacturers of broadly understood local product and people who would like to work in this industry.

Participation in the project will enable these people informal education: in the field of product marketing, local and international promotion and the use of free ICT tools available online.

During the project is being developed the website, Facebook profile and Google platform allowing communication, exchange of experiences, markets.

The website has been structured to host the description of the project, the illustration of the objectives and many pages illustrating the various working meetings, a gallery of typical firms and products, divided by country, with contacts and descriptions both in local languages and in English. The link section contains all links of interest to the topic selected by the partners.

We will encourage local producers to cooperate with producers from partner countries (Italy, Greece, Portugal and Cyprus) and to exchange experiences and share examples of good practice. More information can be found on website www.clip-project.eu.
